

5th YOUNG TRIBOLOGICAL RESEARCHER SYMPOSIUM (YTRS)

21st & 22nd of June 2022

at MikroTribologie Centrum μ TC
Karlsruhe, Germany

Prof. Martin Dienwiebel (Patron)

Junge Tribologen

To all young Tribologists

Together, we want to enhance the transfer of knowledge within the field of tribology – from all points of view.

The symposium's focus is on:

- » Presenting projects and theses of young researchers in academia and industry
- » Discussing new topics and ongoing research projects
- » Providing an „exercise platform“ for major conferences
- » Offering a stage for young scientists and young tribologists

You will have the possibility to exchange your knowledge with other young scientists and gain experience in presenting your research. Furthermore, we offer advice regarding topics such as research methodology, testing possibilities, research presentation, or scientific writing.

We are looking forward to your participation!
